

Health and Care
ONE RECORD FOR BETTER HEALTH AND CARE

One Health and Care is a confidential shared care record which is being launched for people registered with a GP in The Black Country and West Birmingham.

Health and social care staff from GP Practices, hospital trusts, community and mental health trusts and social care will be able to access your digital shared care record if they are directly involved in your care.

Your health and social care records contain important information about you such as your contact details, medical history, medications, allergies, test results, referrals/discharge information, social and mental health information.

Having your information available to view will help us to provide you with better, safer care by ensuring that we have access to the most up-to-date information about you.

The Black Country and West Birmingham

From 2022

Health and social care professionals will be able to access your health and social care record using a single digital shared care record - One Health and Care.

If you do not want your details shared through the digital shared care record you can request to object by contacting your GP.

If you have any comments, questions, or feedback on any part of One Health and Care, contact the Time2Talk team:

Telephone: 0121 612 4110

Email: bcwbccg.time2talk@nhs.net

Post: Time2Talk, Black Country and West Birmingham CCG, Civic Centre, St Peter's Square, Wolverhampton, WV1 1SH.
